Approved, March 3d, 1861.

JOHN ADAMS,

President of the United States.

An Act making appropriations for the military establishment of the United States, for the year one thousand eight hundred and one.

Sec. 1. BE it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That for defraying the expenses of the military establishment of the United States for the year one thousand eight hundred and one, the pay and subsistence of the officers and men, bounties and premiums,

the clothing, hospital, ordnance, quartermaster's and Indian departments, the defensive protection of the frontiers, the contingent expenses of the war department for the fabrication of cannon and arms, and purchase of ammunition, and for the payment of military pensions the sum of two millions, ninety three thousand and one dollars, be and is hereby appropriated; that is to say.

For the pay of the army of the United States, four hundred and eighty thousand three hundred and ninety six dollars.

For the subsistence of the army, three hundred and six thousand three hundred and ninety-five dollars.

For forage, the sum of seven thousand six hundred and eighty dollars.

For horses to replace those which may die, or become unfit for service, the sum of five thousand dollars.

For clothing, the sum of one hundred and forty one thousand five hundred and thirty dollars.

For bounties and premiums, the sum of forty two thousand dollars.

For the hospital department, the sum of twenty thousand dollars.

For the ordnance department, the sum of one hundred thousand dollars.

For the quartermaster's department, the sum of one hundred and sixty-five thousand dollars.

For paying annuities to the following nations of Indians, in pursuance of treaties: To the six Nations, Cherokees, Chickasaws, and Creeks, the sum of fifteen thousand dollars.

And for presents to the Choctaws two thousand dollars.

For defraying the expense of transportation of annuities to the Indian tribes ten thousand dollars.

For promoting civilization among the Indian tribes, and pay of temporary agents, and rations to indians at the different military posts, the sum of forty-five thousand dollars.

For the defensive protection of the frontiers of the United States, including the erection and repairs of forts and fortifications, the sum of thirty thousand dollars.

For loss of stores, allowances to officers on being ordered to distant commands, and for special purposes; advertising and apprehending deserters, printing purchasing maps, and other contingencies, the sum of thirty thousand dollars.

For the annual allowance to the invalids of the United States for their pensions from the fifth of March, one thousand eight hundred and one, to the fourth of March, one thousand eight hundred and two, the sum of ninety three thousand dollars.

For the fortification of ports and harbours within the United States, the sum of two hundred thousand dollars.

For the fabrication of cannon and small arms; and the purchase of ammunition being the balance of appropriations expended, which have been carried to the surplus fund, four hundred thousand dollars.

Sec. 2. And be it further enacted, that the foregoing appropriations shall be paid out of any monies in the Treasury of the United States, not otherwise appropriated.

LONDON, (Sunday) March 29.

A meeting of the Cabinet Ministers was held yesterday on the subject of the communication which has lately taken place between our government and France, through the medium of M. Otto, on the subject of negotiation. We believe our new rulers to be actuated with a sincere and ardent desire for peace on terms consistent with the honour and interests of the nation, and we are persuaded that the enemy is not less anxious to terminate a war on the successful prosecution of which his means are so inadequate; yet with this impression,

and a further opinion that negotiation will be shortly instituted, we regard the question of peace to depend upon the issue of our Northern and Egyptian expeditions. Our funds have during the week, risen about two per cent, on the rumour of adjutment, and were yesterday a fraction better than on Friday. Lord St. Helens, it is stated, is to be employed on the occasion.

By a messenger who left Constantinople several days subsequent to the courier charged with the ordinary correspondence of that capital, we are possessed of a letter to the 16th of February: the latest accounts which have been received from Syria were dated the 26th of the preceding month. The Tiger and other of his majesty's ships had at that period joined Lord Keith at Marmorissa, and the whole expedition in perfect health, full of confidence and spirits, and with the most abundant supplies of every thing requisite to the enterprise, were on the eve of their departure for Egypt.

Our fleet comprised one hundred and nine ships independent of small craft, which were to be employed in landing the troops.

Constantinople, on the 16th, was very sickly; great numbers of the inhabitants had died of an epidemic disorder, and most of the English residents had been affected by it.

According to the statements in the Monitor, of the 24th inst. which we received yesterday, the expedition had not approached the coast on the 4th ult. at this period, however, two French frigates, La Justice, and L'Egyptienne, having on board 15,000 mulets, a supply of ammunition, and 500 men, one hundred of whom were engineers, had entered Alexandria in ten days from Toulon.—It is added that twenty small vessels, with military stores, had likewise arrived in safety. Menou, in his dispatches to the chief consul, which he sent by citizen Costa and Decocetilla, in the St. Philip corvette, and who landed at Fejus on the 16th, speaks in confident terms of his means to resist the menaced attack of the British and Turkish armies.

From the prevalence of well and fourth west winds, the admiralty remains without advice of the Baltic fleet since its entering the Cattegat on the 17th.

Of Gantheus's squadron nothing is known since the 10th ult. Apprehension is the general attendant on uncertainty, and the principle, we hope, will be admitted in apology for our fears, that he will effect the object of his enterprise.

We some time since announced that the Algerine minister at our court had made to government assurances of the most cordial attachment of his master to this country; several of our public prints, however, adopting the mis-statements of the Parisian Journals have talked of a republican army embarking at Algiers, assisted by that government, and marching from thence to reinforce their army in Egypt, &c. The fact is diametrically the reverse, and Algiers, instead of favouring the views of France on Egypt, is in declared hostility with the republic, and is anxious to contribute to their expulsion from Africa.

The Algerine ambassador some days since notified to the ministers the receipt of intelligence from his court, that the French envoy who has lately resided at Algiers, and where, with a view to introduce the friendship of the Dey towards France, and to excite him to hostility against England, he has expended immense sums of money, has been dismissed, and ordered to inform the French government, that preliminary to any negotiation they might offer to the Algerine state, must be the evacuation of Egypt by her troops;—upon this condition Algiers had consented to four months armistice, which has been prolonged under an opinion that this stipulation would be complied with, and upon this condition alone would the listen to an overture for the re-establishment of peace. We have the further pleasure to state, that on Thursday last, the ambassador, who likewise holds the distinguished station of high Admiral of Algiers, officially, communicated to Ministers, that the Dey in testimony of his friendship to his Britannic Majesty, had ordered that a Knight of Malta, and 263 Maltese, who had been captured by his cruisers previous to the

reduction of la Valette by the British, and fold into slavery, should be liberated with out ransom (which would have amounted to upwards of 100,000), considering their subjects of his majesty, and has directed that whatever supplies of provisions may be wanted by the garrisons of Malta or Minorca, shall be furnished by his States.

He further informs, that an army of 35,000 French had entered Spain by Pamplonia, and were on their march to Badajoz, where they were to be joined by 30 battalions of Spanish infantry, and 20 of horse, who were to repair thither through Galicia; immediately after forming this junction, they were to enter Portugal, and commence the sanguinary trade of war.

DENEALE'S

PATENT KILN.

THE subscriber, a native born citizen of the Commonwealth of Virginia, and residing at Dumfries, having invented a KILN for the purpose of drying Grain, particular Corn, and for which he has obtained a Patent from the General Government, is desirous of disposing of the privilege of erecting and using the said KILN, to any persons who may apply for the same.

The advantages attending this KILN, he flatters himself, will be found vastly superior to any thing of the kind now in use; it being erected at a very inconsiderable expense, and when used by unskilful persons of Flour, may be worked with but little expense to the colour, taste or smell of the Flour; and will render it capable of being kept without moulding, almost any length of time. From actual experiment, it has been found that one cord of wood is sufficient to dry from 1500 to 2000 bushels of Grain under those who are engaged in the business of manufacturing Corn Flour, the saving in labour and fuel will be immense, independent of other advantages.

His price for the privilege of using the Patent KILN, accompanied with a drawing and explanatory notes, for to enable any workman to erect it, will be Forty Dollars, for a KILN containing 40 bushels, and one dollar for each bushel a KILN contains above or under that quantity.

Letters addressed to him (post-paid) will be duly attended to.

November 12, 1800.

James Deneale.

Please read the annexed Certificate.

Since James Deneale completed his KILN for drying of Grain, (and for which he has received a patent right) I have got about fifteen hundred barrels of meal manufactured of corn dried therein, which was shipped to Alexandria, Norfolk and New-York, and at the places mentioned, as far as superior to meal made of corn dried in the mode heretofore common. Neither colour or taste is injured, as no smoke passes through it, or any portion subject to be burned, as in the old mode of drying; the process is so contrived, that every grain receives an equal portion of heat, the work is as effectively done, though little fuel is consumed comparatively with the old system, and much labour is saved. On the whole, I can with confidence say that it is a great improvement to examine one of these "DENEALE'S KILNS" at work, to convince of its being an improvement which must become extensively beneficial to the community. Given under my hand, and the seal of my office, immediately made fit to ship on the longest voyages. In southern climates, it must be more especially and generally useful, as thereby, and at final expense, the fly, or weevil, so troublesome and destructive, may be destroyed in embryo, immediately after harvest.

James Smith.

Dumfries, 7 November, 1800.

Fairfax County, to wit:

I do hereby certify that I was (with others) called on by James Deneale, Esq. of Dumfries, to inspect a KILN constructed and contrived by him on a new plan, for drying of Indian Corn and other Grain, and after seeing this machine at work, observing the effect it had on the grain, and viewing the model, I am of opinion that Mr. James Deneale's KILN is constructed on the best plan of any that I have ever yet seen, for the reason, that the Grain is well and equably dried, and the colour and taste of the Grain is not injured; that a much larger quantity may be dried in a given time, and that the fuel and labour necessary, is not one half of what other KILNS require; it is well known to every citizen of the great advantage of KILN-drying grain, corn in particular cannot be shipped on long voyages without, and that, indeed, so destructive called the fly may be destroyed in the grain by KILN drying. Given under my hand this 4th day of November, 1800.

George Gilpin.

ALEXANDRIA, 4th November, 1800.

To all whom it may concern, I do hereby certify, that I have examined the model of Mr. James Deneale's CORN KILN at Dumfries, and am fully satisfied that it is the best invention that has ever come under my notice for drying of grain, it will not require much fuel, and the labour necessary, on the plan formerly in use. I likewise inspected several hundred barrels of meal at this point made from corn dried in said KILN, and find it entirely free from being moulded, which has heretofore injured the meal very much, when the grain was dried on the plan formerly used.

Daniel Douglass.

Flour inspector.

I, Isaac M'Pherson, of the Occoquan Mills, in the county of Prince William, (fuller) do hereby certify, that I have worked one of James Deneale's new invented CORN KILNS, and find that I can dry 500 or 600 bushels of corn each day, and better than I ever saw corn dried on any other kind of KILN; I am of opinion that one cord of wood will dry 2000 bushels of grain. I further find, that wheat may be dried immediately when taken from the field, which will be fit for shipping, and prevent the fly, or what is called the weevil from injuring the grain.

Isaac M'Pherson.

November 4, 1800.

I, Clean Moore, Notary Public in and for the district of Alexandria, duly admitted and sworn, do hereby certify, that Daniel Douglass is Inspector of Flour for the Port of Alexandria; and that Isaac M'Pherson is a Justice of the Peace, and has been largely concerned in that business, at the Occoquan Mills;—that George Gilpin and James Smith are Gentlemen of respectability and reputed scientific abilities. Given under my hand, this 13th day of November, 1800.

As we are desirous that the original owners of those lands should know who has become the purchasers, and are willing to relinquish them to the proper claimants, on receiving an adequate compensation, we have thought proper to give notice that applications from any person interested, made before the first day of August next, will be attended to—after that time we will not consider ourselves bound to give any one a preference, but will proceed to do the best we can with our purchases. Letters addressed to either of the subscribers, in Lexington, postage paid will be answered.

WEREAS, by an act of the General Assembly of this Commonwealth, passed at the November session, one thousand eight hundred, entitled "An act for the relief of Christina Smith" It is provided among other things that it shall be lawful for the said Christina to sue out of the court of quarter sessions of Bourbon county, or any other court in the said county, having equal cognizance, a writ against Terrence Smith her husband, for inhuman and barbarous treatment and for deserting her for the space of one year without contributing anything towards the support of her and her children. These are therefore in the name of the Commonwealth of Kentucky, to command and require the said Terrence Smith to appear before the justices of the court of quarter sessions for the said county of Bourbon, at the court house thereof, on the first day of their next August term, to answer to the said Christina, concerning the premises.

Witness, Thomas Arnold, clerk of our said court at the court house aforesaid, this 25th day of May 1801, in the 9th year of the Commonwealth.

SACRED TO THE MUSES.

SONNET TO TWILIGHT.

MEET twilight hark to thrond the fair lay,
And bring the hour my penive (light loves);
When'er the bill is flood a pale day,
That gives to illuless, and to night, the groves.

Ah! let the gay, the rofate morning hail,
When in the various blooms of light array'd
She bids her beauty live along the vale,
And rapture tremble in the vocal fluids:

Sweet is the lull mooring's op'ning flow'r,
Her coral mollets beatignly rise;
Yet dearer to my full the shadowy hour,
At which her bloods close, her nauties die;

For then mild nature, when she droops her head,
Weakens the foot: tear his luxury to shed.

ANECOTE.

In a season of great drought, in Persia, a schoolmaster at the head of his pupils marched out of Shiraz, in procession, to pray for rain; and a humorous fellow asked where they were going? The tutor told him, and said, "He doubted not but God would listen to the prayers of innocent children." "My friend had the humorist if that was the case I fear there would be no school-masters."

For sale on reasonable terms, at the office of the Kentucky Gazette.

FRESH SUPPLY.

MACBEAN & POYZER,
Have just received from Lee & Co's FAMILY and MEDICINE WARE-HOUSE, Baltimore, a Large Supply of the most Celebrated

MEDICINES:

Price 1 dollar per packet,
Hamilton's Worm Destroying Lozenges.

Which have, within two years past, given relief to upwards of FIFTY THOUSAND PERSONS, of all ages, in various dangerous complaints, arising from worms and from flatulency or obstruction in the stomach and bowels.

A peculiar excellence of this remedy is, its being suited to every age and constitution: contains no opium but what is perfectly innocent, and is so mild in its operation, that it cannot injure the most delicate pregnant lady, or the tender infant of a week old, should no worms exist in the body—but will without pain or griping cleanse the stomach and bowels of whatever is foul or offensive, and thereby prevent the production of worms and many fatal disorders.

Description of Worms, and the symptoms by which they are known.

Worms which infect the human body, are chiefly of four kinds, viz. the Tereus or large round worm, the Ascarides, or small white worms, the Cucurbitina, or flat, white worms, and lastly, the Tenuis, or tape worm, which is found in the intestines to the length of many yards long, and is fatal of joints—it is most hurtful, and most difficult to cure.

Among the symptoms attending worms, are, disagreeable breath, especially in the morning—Bad and corrupted gums—Itching in the nose and about the face—Convulsions and epileptic fits, and sometimes privation of speech—Starting and grinding of the teeth in sleep—Irregular appetite, sometimes loathing food, and sometimes voracious—Vomiting with slimy and foetid stools—Vomiting—Large and hard belly—Pain and sickness at the stomach—Swelling in the head and thighs, with lowness of spirits—Slow fever, with small and irregular pulse—A dry cough—Excessive thirst—Sometimes pale and unhealthy countenance, and sometimes the face bloated and flushed.

Persons afflicted with any of the above symptoms, should have immediate recourse to HAMILTON'S WORM DESTROYING LOZENGES, which have been constantly attended with success in all complaints similar to those above described.

Children generally take this medicine with eagerness, having a pleasing appearance, and an agreeable taste.

We shall give occasionally, an account of cures, selected from a number of persons in this state.

Price 1 dollar and 50 cents, per bottle.
The Genuine Perian Lotion,
For Cleaning and Cleansing the FACE and SKIN.

Of all Scorbatic and other Eruptions—particularly Freckles, Pimples, Pits after the Small-Pox, Inflamatory Redness, Swellings, Ring-Worms, Sun-Burns, Prickly Heat, Premature Wrinkles, &c. &c. Rendering the skin delicately clear and soft, improving the complexion, refreshing and preserving the bloom of youth.

Price 1 dollar and 50 cents, per bottle,
Church's Cough Drops,
For the cure of COUGHS, COLDS, ASTHMA'S & CONSUMPTIONS.

Price 1 dollar and 50 cents per bottle,
Infallible Ague & Fever Drops,
For the cure of Agues, remittent and intermittent Fevers.

Thousands can testify of their being cured by these drops, after the best of every medicine has proved ineffectual; and not one in a hundred has had occasion to take more than one, and numbers not half a bottle.

These drops are particularly recommended to the inhabitants of low marshy countries, where the worst sort of agues generally prevail, which unless early attended to and speedily removed, injures the constitution exceedingly, and brings down the system, and a variety of complaints, of the most dangerous and alarming nature. Many other medicines are daily offered to the public for the cure of this disorder, which, upon trial, have been found either dangerous or useless. The bark is the usual remedy made use of, but being a very nauseous medicine, and seldom taken in sufficient quantity, it very often fails; and children, and those who have weak stomachs, are frequently lost for want of a more easy and pleasant remedy.

Price 75 cents per box,
The Sovereign Ointment for the Itch.

Which is warranted an infallible remedy at one application, and may be used with the most perfect safety by pregnant women, or on infants a week old, not containing a particle of mercury, or any dangerous ingredient whatever, and is not accompanied with that tormenting smart, which attends the application of other remedies.

PREVENTION BETTER THAN CURE.
For the prevention and cure of Bilious and Malignant Fevers, is recommended (Price 1 dollar per box.)

Dr. Hahn's Anti-Bilious Pills,
Which have been attended with a degree of success highly gratifying to the inventor's feelings, in several parts of the United States, and the southern of the United States, particularly in Baltimore, Petersburg, Richmond, Norfolk, Edenton, Wilmington, Charleston, and Savannah. The testimony of a number of persons in each of the above places can be adduced, who have reason to believe that a timely use of this salutary remedy, has under Providence, preserved their lives when in the most alarming circumstances.

The operation of these pills is perfectly mild, so as to be used with safety by persons in every situation, and of every age. They are excellently adapted to every off-spirited humor, and prevent its morbid secretions to reflux and amend the appetite—to produce a free perspiration, and thereby prevent colds, which are often of fatal consequence—A dose never fails to remove a cold, if taken on its first appearance. They are celebrated for removing habitual colic—lowness at the stomach, and feverish head-ache—ought to be taken by all persons on a change of climate.

Price 1 dollar and 50 cents per bottle,
The Genuine Elixer,
and, 1 dollar per box,
The Genuine Extract, of Mul-tard.

For the Cure of Rheumatism, Gout, Palsy, Sprains, White Swelling, &c. and has performed more cures in the above complaints, than all the other medicines ever before made public.

Price 1 dollar and 50 cents per box,
Dr. Hamilton's Elixer,
A sovereign remedy for Colds, Obdurate Coughs, Althas, and approaching Consumption, and is far superior to any other medicine for the WHOOPING COUGH.

Price 2 dollars,
Indian Vegetable specific,
For the Cure of a Certain Disease.

Price 2 dollars,
Hamilton's Grand Restorative,
Is recommended as an invaluable medicine for the speedy relief and permanent cure of the various curable diseases, resulting from dissipated pleasures, juvenile indiscretions, residence in climates unfavorable to the constitution, the immoderate use of mercury; the diseases peculiar to females at a certain period of life; bad lymgs in &c.

Price 50 cents,
The Damak Lip Salve,
An elegant and pleasant preparation for chapped and sore lips, and every blemish and inconvenience occasioned by Colds, Fevers, &c. speedily restoring a beautiful rosy color, and delicate softness to the lips.

Price 75 cents per box,
The Restorative Powder for the Teeth and Gums.

This excellent preparation comforts and strengthens the gums, preserves the enamel from decay, and cleanses and whitens the teeth, absorbing all that acrimonious humor and foulness, which suffered to accumulate never fails to injure and finally ruin them.

Price 50 cents,
Dr. Hahn's True and Genuine German Corn Plaiter,

An infallible remedy for Corns, speedily removing their root and branch, without giving pain.

Price 1 dollar per bottle,
Dr. Hahn's Genuine Eye Water,

A sovereign remedy for all diseases of the eyes, whether the effect of natural weakness or of accident, speedily removing inflammations, defusions of rheum, dimness, itching, and films on the eyes, never fails to give relief, and is frequently frequented by the small-pox, measles, and fevers, and wonderfully strengthening a weak sight. Hundreds have experienced its excellent virtues, when nearly deprived of sight.

Price 75 cents,
Tooth-Ache Drops,
The only remedy yet discovered which gives immediate and lasting relief in the most severe instances.

Price 1 dollar,
The Anodyne Elixer,
For the cure of every kind of Head-Ache, &c. &c.

N. B. These medicines are sold as above, by appointment, and no where else in Kentucky.

Also may be had at above,
Hooper's Female Pills,
Anderson's Scor's do.
British Oil,
Godfrey's Cordial,
Dr. James's Fever Powder,
Turlington's Balm,
Daffy's Elixer, &c. &c. &c.
